PROFESSIONAL SUMMARY

Final-year Management Information Systems student (GPA 3.8/4.0, Vietcombank Scholar 2025) with hands-on experience in SQL, Tableau, and Power BI. Completed two end-to-end analytics projects: a Mobile In-App Purchase analysis for game monetization (Tableau) and a Vietnam Tourism Revenue dashboard (Power BI) - both involving data cleaning, KPI design, and actionable business insights. Eager to apply data storytelling and analytical thinking to support Rocket Game Studio's product and business decisions.

TECHNICAL SKILLS

Data Analysis	SQL Server · Python (Pandas, NumPy) · R · Excel (Pivot, VLOOKUP, advanced formulas)
Visualization	Tableau (Calculated Fields, Table Calculations, Dashboard Actions, Story) · Power BI
Business Analysis	Requirement Gathering · Process Modeling (BFD, DFD, Flowchart) · UML · ERD Design
Tools & Others	Draw.io · Figma · Microsoft Project · Git · Basic C# (WinForms)

PROJECTS

Portfolio

Mobile In-App Purchase Analytics · *Personal Project - Tableau + SQL*

End-to-end analytics project on a 3,024-user mobile game IAP dataset, simulating a real game studio data workflow:

- Data Cleaning (SQL):** handled nulls, standardized categorical fields, removed duplicates, validated Purchase_Amount ranges and date formats across 14 columns
- Dashboard 1 - Revenue Performance Overview:** KPI cards (Total Revenue 96K, ARPU 7.97, CVR 95.5%), monthly trend with 7-day rolling average, revenue by country, and day-of-week analysis revealing Tuesday as peak revenue day (1.8K, avg 42/transaction) - counter to common assumptions
- Dashboard 2 - Player Segmentation & Behavior:** Pareto chart showing 68 Whale users (2.2%) generate 59.3% of revenue; scatter plot proving no correlation between session length and spend; age-group analysis revealing Teen 13-17 has highest avg spend (19) - higher than Young adults (9)
- Dashboard 3 - Game & Monetization Insights:** Treemap of revenue by genre (Racing #1 at 9.2K), top-5 genre revenue trend line chart, payment method breakdown, iOS vs. Android avg spend (05.6 vs. 0.7)
- Key Output:** Tableau Story with 5 narrative story points and data-backed recommendations covering Whale retention program, Flash Sale timing optimization (Tue-Thu), and First-Week nurture campaign

Vietnam Tourism Revenue & Booking Performance · *Course Project - Power BI*

Built an interactive Power BI dashboard analyzing 2022-2025 tourism data for a Vietnamese travel business:

- KPIs tracked:** Total Revenue 21,999M VND · Booking Rate 90.02% · Returning Rate 66.38%
- Revenue insights:** Identified Jun-Aug as peak season; Phu Quoc (2.86B), Da Nang (2.75B), Nha Trang (2.53B) as top-3 destinations; Beach tour type leading at 29.49% of bookings

- **Customer analysis:** Segmented by tour type preference and satisfaction score (avg 4.21/5); identified 34% non-returning customers as key retention gap
- **Recommendations:** Expand premium Beach + resort combo packages; implement personalized loyalty program to increase returning rate from 66% toward 75-80%

Human Resource Management System · *Personal Project - SQL Server + Figma*

- Analyzed multi-level leave approval workflows across 10 HR modules; designed optimized ERD and implemented triggers and stored procedures to automate leave tracking and payroll
- Modeled system interactions using flowcharts and UML; proposed data-driven HR dashboard mockup in Figma

Library Management System · *Course Project - SQL Server + C# WinForms*

- Designed ERD and database schema; implemented business logic ensuring data consistency across borrowing/returning transactions
- Developed WinForms UI for catalog, borrowing, and return operations; reduced data redundancy by optimizing entity relationships

WORK EXPERIENCE & ACTIVITIES

SEO Content Contributor · *E-commerce & Travel Websites*

2023 - Feb 2025

- Produced SEO-optimized content in Vietnamese and English; conducted keyword research and improved on-page SEO performance metrics
- Structured content to enhance user experience, developing systematic thinking about content hierarchy and audience targeting

External Relations Team · *IT Club - National Economics University*

2023 - 2024

- Sourced and negotiated sponsorships with corporate partners; managed project budgets and coordinated technology workshops

EDUCATION

National Economics University

College of Technology - Management Information Systems

Relevant coursework: Data Analysis, Database Design, Information Systems Analysis

2023 - Present

GPA: 3.8 / 4.0

Vietcombank
Scholarship 2025
